ABOUT US

Cowries Finance is a global systematic investment platform. Our centralized research focuses on the development of advanced quantitative techniques for uncovering market opportunities and employs them within a disciplined framework that results in efficient exposures.

With a robust infrastructure and talented investment professionals, Cowries Finance offers clients the scale of a large asset management firm, with the benefits of a versatile investment platform – flexibility and customization. Our firm is able to offer institutional and retail investors the essential building blocks for today's changing investment landscape.

Cowries Finance, is the answer to a basic question every crypto investor has one time asked. What are the best crypto investment solutions that guarantee passive cash flow with a proper risk management system?

Since the inception of Blockchain technology and crypto-currency, new crypto innovations and trends have stemmed bringing solutions to existing flaws that affect network scalability and decentralized finance, but none of them really solved the real problem, which is the "crazy" Crypto price volatility.

We believe creating a system that keeps cash flow growing for investors during price volatility is an underestimated weapon that directly empowers more investors to achieve their financial goals and also attracts more institutional investors looking to grow and diversify their portfolios for short or long-term purposes.

Cowries Finance company uses only advanced trading tools and trades at the most steady markets, which minimizes the uncertainty of financial loss to investors and guarantees them a steady income accrued every calendar day.

Cowries Finance is an extensive software crossed chain system centered in developing defi yield protocol (APY) mining liquidity enabling trading on multiple exchange from a single interface.

Cowries Finance was founded in the United States in 2016 and was officially launched in 2018. Cowries Finance has been developing and exploring through the years leveraging its source of making different analysis in market liquidity, and solving algorithms using special trading techniques, our special techniques allow us to make excellent trading charts

HOW TO CREATE ACCOUNT

The Registration Process is easy

- Click on the Register Buton
